TOPFODDER - Making top quality Silage

Workshop dates 10th, 11th Feb and 3rd March, 2011, 9.00am – 4.00pm

At the Savoy Club, Myrtleford

Do you want to reduce costs? Boost returns? Lift production? Eliminate waste? Improve pasture management?.....Better silage could be the answer.

TAFCO, Goulburn Ovens TAFE and DPI (Vic) invite you to register for a TOPFODDER Silage making workshop to be held locally in February and March.

This workshop is suitable for farmers, contractors and anyone interested in knowing more about the techniques required to make TOP QUALITY SILAGE.

Silage making specialist Frank Mickan from DPI, Victoria, will facilitate the 3 day workshop. The cost per participant will be \$500 (or less for those eligible for government subsidy), which includes a comprehensive manual, speaker's notes, morning/ afternoon tea and lunch each day.

The workshop will include: Why make silage? Harvesting equipment, techniques and timing; Crops suitable for making silage; Storage options; Moisture management; Meeting livestock feed requirements; Yield and quality measurements and Productivity return and profitability.

If you would be interested in attending this 3 day TOPFODDER workshop please send your details to Julie de Hennin, Industry Trainer, GOTAFE, fax 02 60201136 or post to 697 Murray River Road, Talgarno 3691 or phone your information to 0412 433 499. Workshop fees can be paid to GOTAFE or charged to a TAFCO account.
