- 10. Special Resolutions approved by the Board 15.10.2020 to change rules Background:

In response to growing the TAFCO business and the current strategic plan — it is proposed to expand TAFCO's profile in emerging markets through the creation of a new class of shares being community membership without shareholding. The aim of introducing a new class of membership is to enable TAFCO to expand sales into the domestic and potential future online markets and for long term sustainability of the business. To implement this a change to rules is required through a Special Resolution.

2. A code of conduct for Board Members has been adopted by TAFCO and needs to be referred to in the Rules which also requires a Special Resolution:

The following amendments to rules are:

Rule No. 5 to show there are two types of members:

(a) Shareholder member (b) Community member without shareholding

Rule No. 16. to include the word 'shareholder' in front of member.

Rule No. 45 (3) That all directors must be shareholder members'

Rule No. 45 (4) That directors must comply with the Directors Code of Conduct and a breach can lead to their removal as a Director

By Order of the Board.

Tobacco & Associated Farmers Co-operative Ltd Annual Report 2019-2020 **CHAIRMANS REPORT**

It is with great pleasure that I present the TAFCO Chairman's Report for the 2019-20 Year – A year of significant challenges for our members and staff. A year of bushfires, a global pandemic and expansion of our business to form a new company to benefit many of our members and the sale of AIRR, our former buying group to Elders.

Again, TAFCO has had a busy and successful trading year as reflected in the Financial Statements. TAFCO's current trading position remains strong with steady growth, a remarkable 13% growth from the previous year. This increase of \$880,000 in turnover saw TAFCO'S total annual turnover just shy of \$7million -

Directors issued a 4% rebate on trading and a 4% dividend on shares which was paid as a credit on member's accounts in June 2020. \$246,617 distributed back to our 600 members as a credit on their account. Since TAFCO was formed in 1987 we have given back just over \$4 million to our members through rebates, dividends and bonus shares.

TAFCO's store has had improvements to the drive through and yard storage area as we maximize every square metre of space for our expanded stock lines and carrying capacity.

An in house governance session for Co-operative Directors was conducted by the Federation of Co-operatives for all TAFCO Board members and alternates as part of our commitment to good governance of the organization. During the course of the year, member Jake Howman was brought on as a new alternate Director and attended the governance session as part of his induction.

The sale of AIRR (Australian Independent Rural Retailers) to Elders in November 2019 was reflected in the Balance Sheet. TAFCO was a formation member of the AIRR buying group and help just over 90,000 shares at the time of the sale. TAFCO accepted the default consideration of the sale of AIRR to Elders which comprised of 50% cash and 50% Elders Shares.

As at the 30th June TAFCO's Balance Sheet shows Shares held in Elders valued at \$788,435 as compared with AIRR Shares valued at \$733,738 the previous year.

We are nothing without members – Our wine grape grower members were hit hard this year due to the Victorian Bushfires and the impact of smoke on their wine grapes. Many without any vintage for 2020 and we are yet to see the full repercussions. One of our largest members HVP lost significant assets through the bushfires which will take many years to recover.

A number of events were in TAFCO's pipeline had to be cancelled due to Covid-19. Our annual ladies day to the Melbourne International Flower Show was the first of many cancelled events and the Myrtleford Farmers Market went into hibernation for 6 months, only recently relaunched in September 2020.

Prior to Covid, TAFCO ran a series of events during the year including a number of workshops on drought preparedness which included two day workshops throughout the Kiewa, King and Ovens Valleys. Agronomists Sue Briggs and Mark Palmer were joined by soil scientist Cath Botta in these workshops which were well attended by farmers interested in improving their pastures as we faced seasonal dry conditions. Participants received free soil tests as part of this project.

Q Fever vaccinations were offered for the second time and well taken up by members.

Partnerships are valued by TAFCO and during the course of the year we welcomed Bendigo Bank as a partner to the Myrtleford Farmers Market for the next three years.

The formation of Rapid Fertiliser and Bulk Spreading P/L in partnership with Brad and Bryce Cundy was a major development during the year. Trading as TAFCO Rapidfert, we purchased the long established K & P McPherson fertiliser supply and spreading Myrtleford based company and commenced trading on the 1st February 2020.

This was a significant development in securing TAFCO's future development.

Looking to the future, organic growth has been sustainable within the farming community. We are now looking to open up membership to the community through the introduction of a new class of membership. A community membership that does not hold shares. Very similar to loyalty schemes that exist in other business models, the Board believe this is a positive step in securing long term sustainability for the co-operative. Rebates and dividends will continue to be paid to existing shareholder members and a loyalty scheme and for community members with operating 'cash sales'.

I would like to thank the Board of Directors and Management team of Tony Vaccaro & Kerry Murphy who continue to run the co-operative sustainably and profitably while overseeing major changes within the co-operative. Furthermore, I would like to acknowledge the 30 years of service by our Manager who continues to run our core business extremely successfully.

To all our staff, firstly we welcome Alicia Gordon in a new role of Administration Office Manager and Health & Safety Rep joining Glenn Cousins, Gerard Sacco, Neville Blewett, James McKerral, Peter Clark, Blake McPherson and Mitch Clark a great team - thank you for your input and hard work over the past year. Merchandise sales, on farm deliveries, accounts and cleaning – you all contribute and I wish to thank you all to working as a team.

Finally to our members, a co-operative exists for you, it is through your support that we continue to be a leading supplier of quality goods and services to the region.

Notes to the Financial Statements:

Note 1: Summary of Significant Accounting Policies

Basis of Preparation

The directors have prepared the financial statements on the basis that the company is a non-reporting entity because there are no users dependent on general purpose financial statements. The financial statements are therefore special purpose financial statements that have been prepared in order to meet the needs of members.

The financial statements have been prepared in accordance with the significant accounting policies disclosed below, which the directors have determined are appropriate to meet the needs of members. Such accounting policies are consistent with the previous period unless stated otherwise.

The financial statements have been prepared on an accrual basis and are based on historical costs unless otherwise stated in the notes. The accounting policies that have been adopted in the preparation of the statements are as follows:

(a) Income Tax

The income tax expense (income) for the year comprises current income tax expense (income). The company does not apply deferred tax.

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at the reporting date. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

(b) Loans and Receivables

Trade receivables are recognised initially at cost and are subsequently measured at cost less any provision for impairment. Most sales are made on the basis of normal credit terms and are not subject to interest. Where credit is extended beyond normal credit terms and is more than 12 months, receivables are discounted to their present value. At the end of each reporting period, the carrying amounts of trade and other receivables are reviewed to determine whether there is any objective evidence that the amounts are not recoverable. A provision for impairment is established when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of the receivables.

Other receivables include loans granted by the company and are discounted to present values using the interest rate inherent in the loan.

(c) Intangible Assets

Goodwill

Goodwill is recorded at the amount by which the purchase price for a business combination exceeds the fair value attributed to the interest in the net fair value of identifiable assets, liabilities and contingent liabilities acquired at date of acquisition.

Goodwill is subsequently measured at cost less any impairment losses.

Goodwill is subject to impairment testing when there is objective evidence the business has been impaired. Impairment losses are calculated based on the directors' assessment of the business's recoverable amount. Recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have not been discounted in determining recoverable amount.

Gains and losses on the disposal of a business include the carrying amount of goodwill relating to the business sold.

(d) Impairment of Assets

At the end of each reporting period, property, plant and equipment, intangible assets and investments are reviewed to determine whether there is any indication that those assets have suffered an impairment loss. If there is an indication of possible impairment, the recoverable amount of any affected asset (or group of related assets) is estimated and compared with its carrying amount. The recoverable amount is the higher of the asset's fair value less costs of disposal and the present value of the asset's future cash flows discounted at the expected rate of return. If the estimated recoverable amount is lower, the carrying amount is reduced to the estimated recoverable amount and an impairment loss is recognised immediately in profit or loss.

(e) Trade and Other Payables

Trade and other payables represent the liability outstanding at the end of the reporting period for goods and services received by the company during the reporting period, which remain unpaid. The balance is recognised as a current liability. Trade and other payables are subject to normal credit terms (30–60 days) and do not bear interest.

(f) Employee Benefits

Provision is made for the company's liability for employee benefits arising from services rendered by employees to the end of the reporting period. Employee benefits have been measured at the nominal amounts expected to be paid when the liability is settled, plus any related on-costs. Both annual leave and long service leave are recognised within the provisions.

(g) Provisions

Provisions are recognised when the company has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reasonably measured.

Provisions recognised represent the best estimate of the amounts required to settle the obligation at the end of the reporting period.

(h) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the balance sheet.

(i) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST.

Cash flows are presented in the cash flow statement on a gross basis, except for the GST components of investing and financing activities, which are disclosed as operating cash flows.

Note 2: Contributed Capital 2020 2019 587,754 Ordinary shares at \$1.00 each fully paid \$587,754.00 \$596,400.00

Ordinary shares participate in dividends and the proceeds on winding up of the company in proportion to the number of shares held.

At shareholders meetings each ordinary share is entitled to one vote when a poll is called, otherwise each shareholder has one vote on a show of hands.

Note 3: Covid-19 (Coronavirus) – (after balance day events)

Due to COVID-19 significant change in asset values may occur after the balance date and may impact on the future income.

Due to the rapid and ongoing changes, the extent of any decline cannot be determined at this time.
